Dear Josh

Thanks for supporting maintenance workers at Fiona Stanley

Yesterday Serco capitulated and signed up to a new agreement that brings the wages and conditions of all the maintenance workers at Fiona Stanley Hospital up to a level that is at least roughly in line with their counterparts at other public and private hospitals in Western Australia.

Please pass on our thanks to everyone at RTBU who came down in solidarity to stand with these workers and demand fair wages and conditions.

Don't hesitate to call on us if we are ever in a position to repay that solidarity.

In unity and respect,
