

KEEP FREIGHT ON AUSSIE TRAINS!

January 2021

RTBU BUSTS SECRET GOVERNMENT PLAN

The RTBU has exposed a secret Federal Government plan to make it easier for foreign ships to come to Australia and undercut domestic freight operators.

If it goes through, this plan will see more containerised freight taken off trains and put onto overseas-based ships that pay workers as little as \$7 an hour.

Thousands of jobs in intermodal rail are at risk.

We're now fighting to stop the proposal in its tracks. We've already put in a submission to the Government, but now we need your help.

You can stand up for Australian real freight jobs by sending an email to your local Federal Member of Parliament.
